EDUCATION

Georgia Institute of Technology (GT)

Master of Science in Human-Computer Interaction – Interactive Computing

Master's project: AI agent for Context-Specific Questions Generation in Google Slides

Advisor: [Richmond Wong](#)

Undergraduate Exchange Program in Computer Science

Atlanta, GA

Expected: May 2025

Fall 2022

Korea Advanced Institute of Science and Technology (KAIST)

Bachelor of Science in Computer Science, Minor in Artificial Intelligence

Double Major in Business and Technology Management

Daejeon, Korea

August 2023

Korea National University of Arts

Undergraduate Exchange Program in School of Drama

Seoul, Korea

Summer 2022

RESEARCH EXPERIENCE

GT Design Intelligence Lab

Graduate Research Assistant; Advisor: [Ashok Goel](#)

SAMI: LLM-based AI-Mediated Social Interaction in Online Learning Environments

- Implemented a self-explanation and self-correction feature in an AI social agent using the Task-Method-Knowledge model.
- [w.1] Designed a learnersourcing system using an AI social agent to enhance intrinsic and extrinsic motivation.

Atlanta, GA

Jan. 2025 – Present

KAIST Interaction Lab

Research Intern; Advisor: [Juho Kim](#)

[c.1] StupidTutor: Understanding Users' Comprehension Ability from Inconsistent Large Language Models (LLMs)

- Designed a user study of 100+ question-answering datasets and used various explanation styles to show AI functionality.
- Developed the back-end for a user study interface using SQLite and Flask, collaborating with a front-end developer.
- Spearheaded data analysis and visualization of a user study with 250+ participants using Pandas with Python and R.

Daejeon, Korea

Jan. 2022 – Aug. 2023

Grinder: Designing Object Detection Based on Human-AI Collaboration in Video Commerce

- Designed object detection framework with a human-in-the-loop approach, fine-tuning based on human-labeled data.
- Led 20+ remote unmoderated usability tests encompassing both qualitative studies and quantitative benchmark studies.

KAIST Experience Design Lab

Research Intern; Advisor: Yiyun Kang

Passage of Water: Raising awareness about freshwater scarcity through interactive online and offline media

- Translated surface water and ocean topography data from NASA JPL into a user-centric interactive online game design.

Daejeon, Korea

Mar. 2023 – Jul. 2023

WORK EXPERIENCE

Tesla Inc.

Data Science Intern

Data Analysis and Predictive Modeling on Customer and Vehicle Churn

- Created and deployed a data pipeline for tracking customer ownership lifecycle, reducing erroneous data by 93.9%.
- Built a customer churn prediction model with PR-AUC 0.704 using Pandas and R, handling multiple large-scale datasets.
- Collaborated and presented to stakeholders biweekly, including finance, service, and customer support teams.

Fremont, CA

Aug. 2024 – Jan. 2025

Samsung SDS Co., Ltd. (Samsung Data System)

Applied Artificial Intelligence Intern

Development of a Real-time Background Segmentation Model for the Video Conference Platform

- Developed a PyTorch model achieving 1.5x speed, 34% higher accuracy, and 14% fewer parameters than the base model.
- Leveraged unlabeled dataset training by knowledge distillation, improving accuracy by transfer learning and fine-tuning.
- Integrated the developed model into Knox Meeting, a Samsung video conferencing platform.

Seoul, Korea

Mar. 2021 – Aug. 2021

Samsung Electronics Co., Ltd.

Data Science Intern

Data Analysis of Key Performance Indicators (KPIs) from LTE Evolved NodeBs (eNBs) Statistical Data for KPI Modeling

- Extracted KPIs from LTE eNBs data and performed correlation analysis using Pandas with Python.
- Collaborated with machine learning developers to optimize LTE eNB KPI modeling based on identified correlations.

Seoul, Korea

Jul. 2020 – Aug. 2020

PROJECTS

AI agent for Context-Specific Questions Generation in Google Slides

Project Leader; Advisor: [Richmond Wong](#); In Progress

Led a master's project on understanding AI use and non-use in slide creation and designed an AI agent to generate questions.

SoundClouds, Participatory Music Generation Exhibition

Lead Developer; Advisor: [Brian Magerko](#); In Progress

Exhibited a music experience where interaction with inflatables generated music. Implemented computer vision using YOLO.

VAL, Interactive Hierarchy Task Network (HTN) System for Task Planning

Independent Study; Advisor: [Christopher MacLellan](#); In Progress | [GitHub](#)

Developed an interactive graphical user interface for HTN to enhance user control over task planning using React Flow.

FORECST, Online Hackathon Website

Project Leader | [GitHub](#) | [Demo](#)

Directed a team of 4 in the end-to-end website development for an online hackathon using React.js and Firebase during COVID.

PUBLICATIONS

Conferences and Journal Papers

[c.1] One vs. Many: Comprehending Accurate Information from Multiple Erroneous and Inconsistent AI Generations

Yoonjoo Lee, Kihoon Son, Tae Soo Kim, **Jisu Kim**, John Joon Young Chung, Eytan Adar, Juho Kim

FAccT 2024: ACM Conference on Fairness, Accountability, and Transparency.

Posters, Demos, and Workshop Papers

[w.1] Engaging Learnersourcing with an AI Social Agent in Online Learning

Jisu Kim, Ashok Goel

L@S 2024 Workshop on Learnersourcing: Student-generated Content @ Scale.

SCHOLARSHIPS AND AWARDS

GT Graduate Research Assistant Scholarship	2025
KAIST Outstanding Graduate Leadership Award	2024
GT International House I-Spirit Award	2022
Mirae Asset Park Hyeun Joo Foundation Overseas Exchange Scholarship	2022
Korea National Scholarship	2018 – 2022
KAIST Outstanding Leadership Award	2020
2nd Place, World Friends Korea ICT Volunteers Project Award	2019
2nd Place, KAIST Athletics Doubles Badminton Award	2018
1st Place, KAIST Civil and Environmental Engineering Undergraduate Research Award	2018

LEADERSHIP AND ACTIVITIES

Committee Member – GT International House	2022
Student President – KAIST School of Computing; Representative of over 900 students.	2019 – 2020
Mentor – Tanzania ICT Volunteers	2019
Team Leader – KAIST Badminton Club	2019
Vice Student President – KAIST Freshman Learning Committee	2018

PRESENTATION AND TEACHING EXPERIENCE

Samsung SDS Co., Ltd. (Samsung Data System)	Seoul, Korea
<i>Speaker and Blog Editor Blog (Korean)</i>	Mar. 2021 – Aug. 2021
Hosted a monthly team seminar titled 'Introduction to AI for Novices' with content published on a Medium blog. Authored a highly popular blog post on 'Image Classification', which ranks in the top 3 Google search results in Korean.	

NAVER Connect Foundation.	Seoul, Korea
<i>Programming Mentor</i>	Jul. 2021 – Aug. 2021
Mentored 25 college-level and above students in the Python Boost course.	

LG Electronics Inc.	Daejeon, Korea
<i>Education Operations Mentor</i>	Mar. 2019 – Dec. 2019
Organized Arduino, CAD, and 3D printer classes for 48 students from multicultural families.	

SKILLS

Programming Languages	Python, R, Java, JavaScript, C, C#, CSS, HTML, PHP, MATLAB, Assembly
Frameworks/Libraries	TensorFlow, PyTorch, Keras, CUDA, Scikit-Learn, OpenCV, React.js, Node.js, Pandas, NumPy, SciPy
Tools/Software	Android Studio, Git, Linux, Jupyter, Arduino, SQL, MongoDB, Flask, Firebase, Processing, CAD, Figma
